Job Description:

The Organisation

MultiChoice Group (MCG), a subsidiary of Groupe CANAL+, is a leading provider of entertainment and related consumer services. The company has an expanding ecosystem, underpinned by scalable technologies, and track record now spans almost 40 years. MCG provides video entertainment products and services through its linear and streaming platforms to millions of households across 50 countries on the African continent. Continues to grow by producing and acquiring the best local, sport and international content, offering tiered subscription packages and aggregated streaming services to its customer base. MCG's superior technology capabilities enable it to continue innovating around distribution, digital, payment solutions and content security to offer the best customer experience across the continent. Reaching up to 100million individuals daily, the MultiChoice Group is using its scale and distribution to expand its platform to include sports betting and interactive entertainment, fin-tech services, household services (focused on internet connectivity with emergency response services) and ed-tech. Irdeto which is MCG's technology business, provides platform cybersecurity services which protect over 6 billion devices and applications globally for some of the world's best media and technology brands, as well as clients in the connected industries.
